

**LIGHT THE NIGHT<sup>®</sup> WALK**

# ST. JOHN'S, BRING LIGHT TO THE DARKNESS OF BLOOD CANCERS

Walk with us on Saturday, October 13 at Bowring Park, as we gather together with families, friends and coworkers to celebrate, honour and remember those touched by cancer.

[LightTheNight.ca/register](http://LightTheNight.ca/register)

Blood cancers are the 4<sup>th</sup> most diagnosed cancer in Canada, yet the survival rates are much lower than many other cancers. Research tells us that 68% of Canadians would feel helpless if they or someone they were close to was diagnosed with a blood cancer.

**You can bring hope to the blood cancer community.**

The Leukemia & Lymphoma Society of Canada is dedicated to supporting patients at any stage of their cancer journey; providing information and vital support services. The money raised will also go to the most promising blood cancer research taking place at cancer centres across Canada.

**For more information on the Light The Night Walk or our Patient Support Services contact: Melanie McMillan 709-351-6592**
